PROBLEM

There is a growing need for artists and art enthusiasts to share, interact and access diverse works of art from around the world.

Accessing platforms for artistic exchange and interaction often faces barriers such as geographical location, language and economic capacity.

SOLUTION

Creating an open online space where individuals can easily share, search, purchase and interact with works of art in a convenient and flexible way.

GUEST

- Explore the platform without registering
- Potential limitations on content access and feature usage

CUSTOMER

- View and search for artwork
- View images and interact
- Purchase premium artwork
- Propose artistic services

CREATOR

- View and search for artwork
- Publish and sell artwork
- On-demand artistic services

ADMIN

- Manage user accounts
- Dashboard access
- Data viewing

TECHNOLOGY

FRONT-END

- html
- css
- javascript

BACK-END

- Jersey RESTful API
- Java

DATABASE

- MS SQL

DEMO

THANK YOU FOR LISTENING!

Do you have any question for me? Yessss
